4 Depot stock

Stock was counted by hand at every depot on the first of May. The counts were typed into a sheet and pasted into this report as a picture.

Table 2: Depot stock at the start of May.

Depot	Crates	Pallets
North	42	12
Quay	37	9
Inland	55	16
Ridge	29	7

Inland holds the most crates by a wide margin. Ridge is due a restock before the end of the month.

Each count passes through four steps before it is reported. A second person checks every figure against the shelf labels.
